Danny O'Brien's House, Lisvarinane Approach

Riverside Way - Unoccupied terraced houses.

Contacts / Update

We have agreed a remedial plan with the owner and have undertaken to fund and do this work ourselves. We have reslated the roof and made safe certain aspects. This brings considerable benefit from a health and safety perspective as well as greatly improving the building aspect. These works have been completed.

We are continuing to undertake works where required with the agreement of the owner.

Mrs O'Neill died some years back without a will. We have successfully traced the living relatives of Mrs O'Neill and have made contact. We have put a proposal to the owners for Tidy Towns potentially to purchase the house and these discussions are ongoing. We are putting together a project to use the house as a music rambling house as it retains all the original features of an old irish cottage. We have undertaken works to improve the facade of the house also.

We have had discussions with relatives of the deceased owner of the house and have agreed remedial works with them. The house has been repainted and is currently up for sale.

There was an issue with unsightly incomplete pipes at the property which has now been resolved. We continue to undertake remedial works where needed in consultation with the housing association responsible for the property.
